Aims of the course:

The aim of the course is to introduce students to company strategy and management in an international context. Based on practical examples, this course gives students the basic knowledge and knowhow to deal with strategic questions regarding business development in an international context. The course gives students the necessary knowhow and knowledge for the analysis, planning and implementation of international strategy in various entrepreneurial contexts such as multinationals, SME or start-up companies. A special emphasis is placed on the conditions for doing business in Central and Eastern Europe.

Learning outcomes and competences:

Upon successful completion of this course, students will be able to:

- recognize challenges in international strategy and business development, especially in the regions of Central and Eastern Europe,
- support managers in their planning regarding different issues in international business development in various contexts such as multinationals or SME as well as different sectors such as retail, manufacturing or services,
- evaluate and select proper transfer pricing method for given MNs,
- describe different types of foreign market entry,
- describe benefits and drawback of an early international expansion.
